## T1: Buy a product in the Welcome Deal section

Status	Type	Priority	Estimate
Passed	Other	Medium	None
References	Automation Type		
None	None		

## Preconditions

Open the site [aliexpress.com](https://aliexpress.com). Click on the window "Welcome Deal".

## Steps

1

check that the discount is displayed in the description of all products

The discount must be displayed in the description of all products

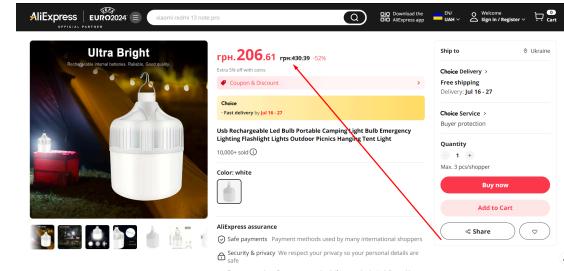

2

click on the product with the displayed discount

The opened product should be displayed with the specified discount

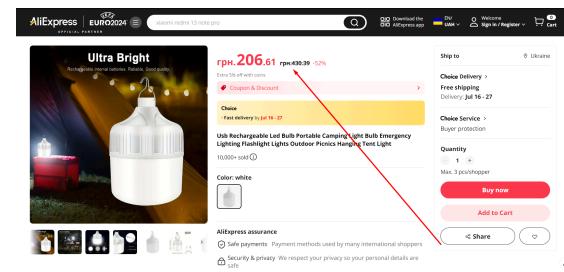

3

check that the price is displayed in the open product window

The discount should be displayed in the open product window

4

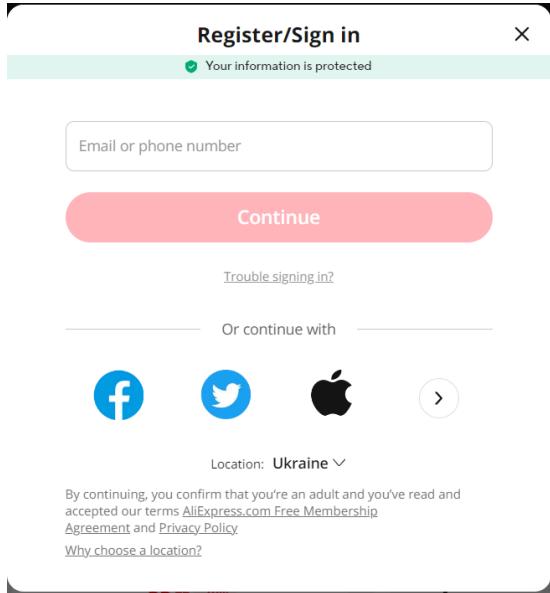

press the button "Buy now"

The open page should open with placing an order

5

register or log in to the site

The user must be authorized on the site

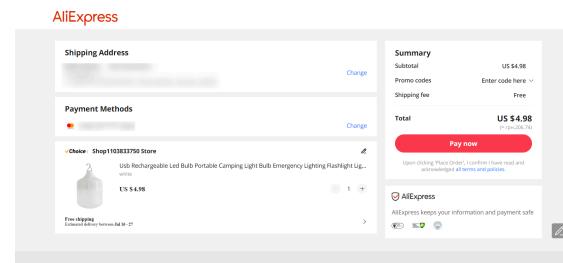

6

press the button Buy now

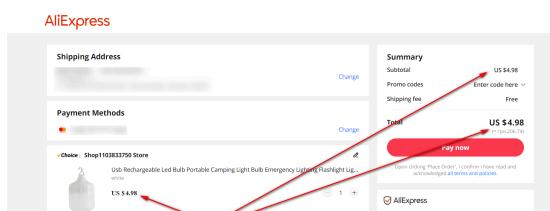

The opened page should be displayed with the order

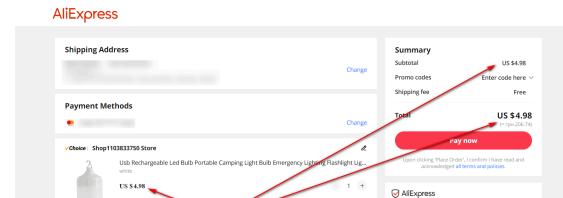

7

check that the price of the product corresponds to the previously mentioned discount

The price of the product must correspond to the previously mentioned discount

8

press the button Pay now

The product must be purchased

AliExpress

The screenshot shows the AliExpress checkout process. On the left, there's a sidebar for shipping address and payment methods. The main area displays a product from 'Shop1103833790 Store' named 'USB Rechargeable Led Bulb Portable Camping Light Bulb Emergency Lighting Flashlight'. The price is listed as 'US \$ 4.98'. To the right is a summary table with columns for Subtotal, Promo codes, Shipping fee, and Total, all showing 'US \$ 4.98'. A red arrow points from the text 'check whether the funds debited for the goods correspond to the amount indicated on the website' to the product price.

9

check whether the funds debited for the goods correspond to the amount indicated on the website

The amount debited for the product must correspond to the amount indicated on the website

### Steps

1

Check that the discount is displayed in the description of all products

The screenshot shows the AliExpress homepage with a navigation bar at the top. Below the bar, there are several category links: All, Consumer Electronics, Home & Garden, Beauty & Health, Phones & Communications, Jewelry & Accessories, and Toys & Hobbies. Below these links are several product thumbnails, including one for a 'Vacuum Preservation' item.

### Expected Result

The discount must be displayed in the description of all products

This screenshot is identical to the one above it, showing the AliExpress homepage with various product categories and thumbnails.

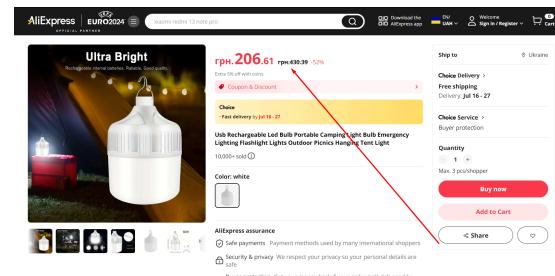

2

Click on the product with the displayed discount

### Expected Result

The opened product should be displayed with the specified discount

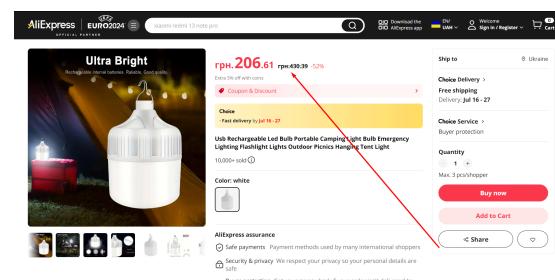

3

Check that the discount is displayed in the open product window

### Expected Result

The discount should be displayed in the open product window

7/9/2024 6:44 PM

Failed

The essence of the discount is not clear.

The name of the discount3 from US \$2.99 (3 from 2.99 USD).

However, there are products of different prices in the list, and when adding three products, they cost different amounts and a discount2.99 does not apply. The total sum of the three products is greater than  $2.99 \times 3 = 8.97$

### Steps

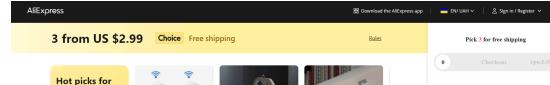

1

Make sure that the page has a window to display the selected products

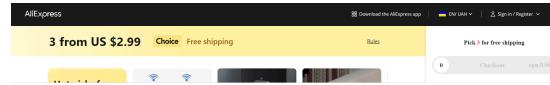

The screenshot shows the AliExpress homepage with a prominent yellow banner at the top stating "3 from US \$2.99". Below the banner, there are several product thumbnails and promotional text like "Hot picks for you".

**Expected Result**

The page should have a window to display the selected products

**2**

Click in turn on the three products that need to be added to the list

**Expected Result**

Each product should be opened in a new window

**3**

Click on the button Add to my picks

**Expected Result**

The product must be added and displayed in the corresponding window
