Description

ID	064		
Summary	When ordering a product, it is possible to place an order with invalid and incomplete information.		
Description	 When ordering a product, the client has the opportunity to enter incorrect information and not to fill in individual blocks. In particular: 1. In the phone field with a fixed country code (+38), it is possible to enter an incorrect operator code of the phone number. (I write such a defect in the absence of conditions or when there is no condition, which is exactly how it should be. It is necessary to add new operator codes during further maintenance. I think it is also useful as one of the points to prove to the client the need to purchase the SDLC stage - Maintenance) 2. "Surname, Name, Father's Name" can be entered only one letter at a time. 3. It is permissible not to choose a delivery address 		
Preconditions	Open the sitehttp://exe.ua		
Steps to repr	1. Click on the product link with the name "TV SONY 75" LED 4K KD-75X80L (KD75X80L)" 2. Press the "Buy" button 3. Click on the "Basket" button 4. Enter incorrect data 5. Click on the "Make an order" button		
Postconditions			
Actual results	 In the phone field with a fixed country code (+38), it is possible to enter an incorrect operator code of the phone number. "Surname, Name, Father's Name" can be entered only one letter at a time. It is permissible not to choose a delivery address 		
Expected results	 In the phone field with a fixed country code, it is impossible to enter an incorrect phone number code, since all codes are known and possible up "Surname, First name, Father's name" can be entered with two or more letters. Be sure to choose a delivery address
